TOGETHER, LET'S #MAKEITHAPPEN

Al Jalila Foundation was established by **His Highness Sheikh Mohammed Bin Rashid Al Maktoum**, Vice-President and Prime Minister of the UAE and Ruler of Dubai, in 2013 to position the UAE at the forefront of medical innovation.

We are a local **philanthropic organisation** with global aspirations and our aim is to be synonymous with world class healthcare, medical academic excellence and **groundbreaking research**.

Al Jalila Foundation, a member of Mohammed Bin Rashid Al Maktoum Global Initiatives, is supported by the generosity of donors with funds directly invested in medical research, education and treatment in the UAE.

WALKING IN THE STEPS OF OUR LEADERS

The late **Sheikh Rashid Bin Saeed Al Maktoum** is fondly remembered as **the Father of Dubai** and visionary architect who bolstered Dubai's economy and modernised its infrastructure.

Sheikh Rashid, renowned for his generosity and understanding of humanity's needs, gave rise to countless health and education initiatives across the city leaving a **lasting legacy benefiting all people** today.

Inspired by Sheikh Rashid's philanthropic endeavours, our ambition is to follow his lead by spearheading innovations in medical education and research to leave our **fingerprint on humanity**.

REALISING OUR AMBITIONS

We are building a new reality for our people, a new future for our children, and a new model of development. ”

At Al Jalila Foundation, we take these words to heart and respond with **unwavering dedication to medical education and research to achieve breakthroughs to transform patients' lives**. We owe the excellent medical care we receive today to the efforts of scientists who passionately pursued answers to health challenges affecting mankind.

Developing effective medical solutions for the future requires ongoing investment and is a commitment that we strive to uphold for the benefit of generations to come.

MAKING A DIFFERENCE

Al Jalila Foundation has raised significant funds with the generous support of our philanthropic partners and invested AED 300 million to **deliver on our promise** to establish the first-of-its-kind multidisciplinary biomedical research institute in the UAE.

We continue to make our vision a reality by cultivating a thriving research community by awarding grants and international fellowships to brilliant researchers in the UAE to lead studies into cancer, cardiovascular disease, diabetes, obesity and mental health.

Our investments **empower researchers** to push the boundaries of science in their quest for medical discoveries that can be translated into improved treatment **to save patients' lives.**

PIONEERING CHANGE

Dedicated to the late Sheikh Rashid Bin Saeed Al Maktoum '**Bassmat Rashid Bin Saeed**' is a unique fundraising campaign that uses cutting-edge technology to recognise the donor community advancing local medical research.

Bassmat, '**fingerprint**' in Arabic, signifies the power donors have to **leave their distinctive mark on the future of medical innovation.**

Designed by Dubai's leading digital engineers and creatives, the first-of-its-kind donor recognition wall comprises of seven donation categories inviting everyone to play their part, from individuals and families to corporations and philanthropists, with every donor recognised in their own right.

Donor funds enable Al Jalila Foundation to advance medical breakthroughs that could **save millions of lives** and change the fabric of science as we know it.

LEAVING YOUR MARK

We invite you to support **Bassmat Rashid Bin Saeed** by having your name engraved on the **donor recognition wall** alongside fellow pioneers leaving your mark and legacy on the future of medicine. **Donate to research and save lives.**
